FIELD TRIPS

Field trips to local sites are usually held monthly. We visit locations like Greenspring Gardens, Kenilworth Aquatic Gardens and various other scenic venues. There are also field trips out of the area to places such as Chincoteague VA and Longwood Gardens in PA. These offer additional opportunities to participate and learn. Beginners quickly advance to an intermediate level.

ADDITIONAL BENEFITS

If you're more experienced, you'll find that most of the activities—competitions, workshops and field trips—provide challenging learning opportunities. You'll meet people who share your interests and learn about the many photogenic locations in our area that provide excellent opportunities to practice your craft.

You'll also be presented with opportunities to show off your successful results at Members Gallery and on our website.

If you're an advanced photographer, we hope to help and encourage you to reach your full potential while you share your knowledge and experience with us.

All of these activities provide opportunities for members to share their experience and expertise in an encouraging and supportive atmosphere.
